

SOME PEOPLE AGREE THAT UNIVERSITY EDUCATION SHOULD BE FREE FOR ALL

I completely agree that university education should be free for everyone. Education should be a right not a privilege.

First of all, Why I believe that universities should not Charge tuition fee for students is that not everyone can afford it. So, there is a possibility that brilliant minds might be able to acquire higher education. Simple because they are unable to pay for it. An outstanding student's weak financial status impeding his academic progress cannot be justified.

Secondly, providing free university education would benefit the country as a whole. Education is essential for a healthy and thriving democracy, and by providing free university education we can ensure that all citizens have the knowledge and skills they need to participate fully in society and make informed decisions. This would benefit not only individuals but also that the community and the country as a whole.

To conclude, I strongly believe that university education should be free for all because education is the key to success. Education is also a weapon that every child deserves a good quality education. And education also help to positively impact society overall.
